Wawa, Ont. The newly laid out in the Michipicooten gold country on Lake Wawa, Ont. The embryo is situated in the narrow pass, which leads to Lake Wawa from the lake place of the river of Lake Superior, which is but six miles from gold discoveries. The News Staff correspondent writes:

As to the gold discoveries developed into anything like the indications in, it can be said, that quartz has been found that assays over \$20 a ton. It was found in one section, but in different parts, extending over several thousand acres. The gold is found here in the form of gold in

In its place, however, which does not seem to be connected to a chemical process, is from the rock.

Prospectors yesterday are finding limestone worth \$50 a ton, probably because it is today weathered into the mud. Another party of 25 reached here yesterday afternoon, about thousand acres have already been claimed, but there are all kinds of claims about various claims, and they can tell you will get a patent from the government.

The country where the "prospector" has found a large quantity of limestone, and Reddon says he believes there are few

FRENCH CABLE CAUSES RICE.
 be Cut Off at Cape Cod by Government
 Authority.

Officials of the state department at
 Arlington and of the attorney gen-
 eral's office have been conferring re-
 latively to the French cable
 lands at Cape Cod.

The cable was first laid under au-
 thority given by the president under au-
 thority of the act of 1879, and recently

 is met with opposition, and Senator
 introduced a bill to prevent the
 dling of cables without the assent of

dition offered another bill leaving the matter with the president. Neither passed congress.

Through the summer work on the cable has progressed steadily, and information received at Washington states that the last link in the line will be completed in mid-ocean in about ten days.

The question before the state department and the attorney general has been as to the right to land the cable on a foreign company.

WITH A BURNING MINE.

THE DISCOVERY OF
THE BURNING MINE IN BELLE ELLEN SHAFT.

THE MEN KNOWN TO BE DEAD.

There Were One Hundred Miners at Work
In the Mine When the Cata-
strophe Occurred.

Shortly after the men went to work
on Monday night last, the mine was
filled with gas, and the men were
killed.

Improvement company's coal mine at Belle Ellen, near Blocton in Wilcox county, Ala., Monday morning. The explosion was discovered far down in the mine, and it took some time to reach the surface. About one hundred men are employed in the mine and an alarm was given. A panic followed, and the workers and in the mine. The explosion killed a number of men, women and children. They gathered at the main entrance of the mine, while rescue parties were at once formed to relieve the

ore than fifty were got out from various entrances without harm. Others were overcome by smoke and lay by the wayside. These the brave men found and dragged out, while others at the entrance resorted life for unconscious friends.

A scene of wildest excitement presented at the mine's mouth. Women and children were screaming and crying for help, and a fire brigade at work endeavoring to overcome the flames.

Many men who were working about the slope where the fire originated could not be reached, and it is regarded as certain that they are dead. The following were:

German, Francis, white; Hubbard,

white; Henry Reeves, colored; Frank James, colored; William Fahnke, colored. It is possible that two of the three also may be in the mine.

The fire brigade battled with the flames all day in a vain attempt to free the entombed men, but at eight o'clock the fire was still burning fiercely and the efforts were abandoned. A letter from Helle Elton says the fire was thought to have originated from a overheated steam pipe, which ignited in the mine. A careful check was made of the list of miners in the mine where the fire broke out to ascertain if possible if the death list was
